

# O<sup>2</sup>web

## A one-stop, self-service tool for your clients and partners!

O<sup>2</sup>web is an add-on to the OGC-Plus system and provides direct Web-based access to database information according to each user's level of security. Anywhere and at any time, clients can search products and prices, view their transaction history, consult and print invoices and account statements, create quotes, and place orders.

### Increase the availability of information 24/7

- Optimize communication with your clients, employees and business partners by giving them 24/7 access to information
- Give your clients access to the information they need, anytime, anywhere
- Stop losing time searching for information and start spending more time on your sales

### Boost the image of your company

- Use O<sup>2</sup>web as a Web site with simple and user-friendly functionalities that makes content management easy to do on your own
- Post information on the Web about your company, products and promotions to increase sales opportunities by driving up in-store traffic.

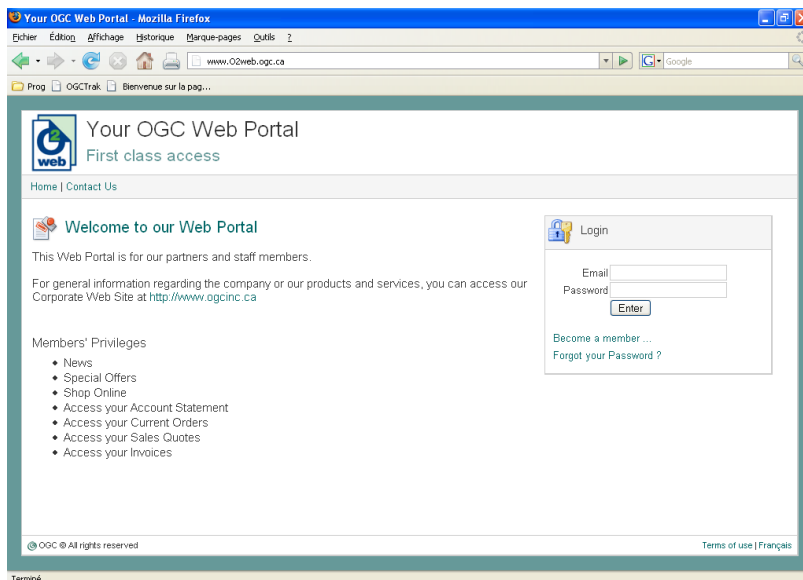

### Improve process performance for you and your clients

- Stand out from your competition to increase success in today's demanding marketplace
- Improve your customer service and reduce your operation costs with O<sup>2</sup>web functions.

*Reduce  
administrative costs*

*Improve  
communication  
with clients, employees  
and partners*

*Increase information  
availability  
24 hours / 7 days*

**O<sup>2</sup>web**  
**ANYWHERE. ANYTIME.**
