

Management solution

## OGC-Plus

For a clear vision of your business

Sales • Customer service • Human Resources • Finances • Inventory

OGC-Plus is an integrated management software that offers leading-edge tools. It includes accounting and administrative management, inventory management and modules for automatic supply, customer service, point-of-sale and electronic exchange modules.

Designed specifically for the retail and distribution market, OGC-Plus has the most advanced technology on the market, allowing it to be tailored to your business procedures and the evolution of your company as well as providing all the security and performance your operations require.

### Increase your profits

- Gain better control over special prices and product discounts
- Manage margin effectively and minimize losses
- Minimize losses and potential fraud with increased security
- Prevent errors with the various automatic features
- Reduce your administrative costs : no end-of-day, end-of-month or end-of-year
- Benefit from fast and automatic payroll preparation
- Avoid costs associated with customizing your software

### Provide better customer service

- Reduce line ups with debit/credit integrated payments
- Provide all the information needed to your customer with flexible and speed up searches
- Quickly access all pertinent data without having to change screen
- Speed up the transaction process with bar codes and quantity prices at the cash
- Convert quotes into orders automatically
- Optimize management of special orders
- Manage rental, delivery and installation services

### Optimize employee workflow

- Supply performance tools to your employees
- Eliminate the time wasted in manually calculating the amount of commissions
- Reduce the risk of manual errors
- Avoid fraud with the individual management of employees privileges
- Allow your employees to do more with less time

- Purchase orders
- Cash management
- Point of sale
- Invoicing
- Sales analysis
- Inventory management
- Stocking
- Receptions
- Accounting
- Payroll module

And much more...

« We used our last system for 13 years and changing to OGC-Plus has been very beneficial. OGC fill our last provider's weaknesses and the change became a shared benefit for our customers and our staff. »

Annie-Claude Locas, Operations Manager, Pépinière Locas
